

## TITLE

First Author<sup>1</sup>, Second Author, and Third Author

ABSTRACT. Let  $\mathcal{A}$  be the class of analytic functions  $f(z)$  in the open unit disk  $\mathbb{U}$ . Furthermore, the subclass  $\mathcal{B}$  of  $\mathcal{A}$  concerned with the class of uniformly convex functions or the class  $\mathcal{S}_p$  is defined. By virtue of some properties of uniformly convex functions and the class  $\mathcal{S}_p$ , an extreme function of the class  $\mathcal{B}$  and its power series are considered.

### 1. FIRST SECTION: IMPORTANT

When preparing the manuscript you should take care for the following:

- (i) All labeled expressions, such as (2.1), **should be** referenced within the paper.
- (ii) When preparing the bibliography you **should** follow the style given at the end of this template. For book see [1] and for papers see [2, 3].
- (iii) All items given in the bibliography (at the end of the paper) **should be** cited somewhere in the paper.
- (iv) **Do not change** the preamble of the LaTeX file, just add extra commands that you need.
- (v) For the definitions, lemmas, theorems, corollaries, remarks, examples and propositions, **use the style** given in the second section.

Key words and phrases. key word 1, key word 2, key word 3,...

Submitted: dd.mm.yyyy; Accepted: dd.mm.yyyy; Published: dd.mm.yyyy.

(vi) When itemising you should do it as here.

## 2. SECOND SECTION

When typing not labeled expression, you should do it like this:

$$f(x) = x^2.$$

When typing labeled expression, you should do it like this:

$$(2.1) \quad f(x) = \sin x.$$

Referencing a labeled expression is done with (2.1).

## 3. EXAMPLES

Example of a definition.

**Definition 3.1.** *Text text*

Example of a lemma.

**Lemma 3.1.** *Text text*

Example of a theorem and proof.

**Theorem 3.1.** *Text text*

*Proof.* *Text text* □

Example of a corollary.

**Corollary 3.1.** *Text text*

Example of a remark.

## CONFLICT OF INTEREST

The authors should declare conflict of interest, if any. For details refer to the section **Ethical Statement** on the journal's web page:
